Rule about smoking *"A proprietor should not permit smoking within 20 feet of the establishment's entrances, open windows, or ventilation systems unless defined differently by a local ordinance. The purpose of the 20 foot rule is to prevent smoke from entering into areas where smoking is prohibited. Smoking is allowed on outdoor patios."* This rule is for Clubhouse and buildings as well. Please be mindful of those who don't smoke!! Thank you for your cooperation.

**Did you know that** you can't just park in a covered parking spot because it's not being used? There are several covered parking spots currently open around the community. However, their owners will soon be coming back, or a renter will be using that covered parking spot. Don't assume it's okay because it's not. Contact the office if you need assistance.

**Did you know that** if your car doesn't fit in your "dedeed" assign spot you can't just trade? All the covered parking spots are dedeed to individual condos.
