

## Jan and Patti's Weekly "DID YOU KNOW!!!"

**Did you know** that your Board is discussing painting the community buildings sometime in 2024? Yes you heard it right and better yet all the residents will have input to the color choices.

**Did you know** Carescape has started working on the turf reduction by buildings 5 and 6? New flowering plants will be planted to bring more color to the community grounds.

**Did you know** Carescape is working on the entrance xeriscape garden? See photo below.

**Did you know** what the building carts are used for and not used for? In each building there is a cart. This cart is used for loading and unloading groceries, luggage, paper products and other supplies; however, NOT GARBAGE!!!! There is a sign that clearly states on the building carts that it's not for garbage or contractor use, fines can be imposed. Please do not use these carts to haul your garbage!! Thank you!

**Did you know** that your pet can not clean up after themselves? A good pet owner will clean up after them and not look away like thinking my pet didn't leave their pet waste on the grass. Well honestly too many pet owners are doing just that, walking away and not cleaning up after their pet. Too much pet waste has been left on the grounds. To maintain our community, it includes picking up after your pet. Be a good pet owner!!

**Did you know** that several ladies right here at La Solana have volunteered to help with gardening? As you all know the building pots have been struggling to keep live plants and flowers. Jan Smith came up with the idea to see if anyone would be willing to oversee the pots to make sure they were getting enough water and looked after. 7 ladies have volunteered to oversee this project. Soon there will be colorful flowers and other plants.

**Did you know** that the first week of October the North parking lot will be paved? If you have a car parked in the North lot please make sure your car is moved before October 1<sup>st</sup>. Any car that isn't moved will be towed at the owner's expense.

**Did you know** that it's the time of year for overseeding? Over the next couple of weeks, the overseeding of the property will take place. Expect to see a lot of water and dust in the air.

**Did you know** that if you are doing any kind of work in your condo an Architectural form needs to be completed and approved before the work can be done? If you plan on putting in new flooring, plantation shutters, getting new screens and other upgrades an Architectural form needs to be completed. No matter how small or large your project is an Architectural form is required.

*That's all for now, look for the next "DID YOU KNOW"!*
